

PA600

Compact Rugged Mobility

Choose the Model that's Right for You

The PA600 comes with a variety of different options, enabling you to select the features and functionality best suited for your business. You have your choice of operating system – Windows Mobile 5.0 or Windows CE 5.0 – depending on your requirements.

When it comes to data entry, the PA600 offers a variety of options – integrated bar code scanner, keypad, touch screen, or RFID. For real time communication, the PA600 offers a choice of WLAN for internal use, GPRS for field-based applications, and Bluetooth for communication with other devices, such as mobile printers.

Lightweight, Rugged and Powerful

The PA600 is small enough to fit into your shirt pocket. It is the lightest rugged PDA in its class, weighing just 290g. But don't let its size fool you – the PA600 packs a powerful punch with a 520MHz processor and an IP64 rating, making it the ideal choice for Retail, Hospitality, Healthcare, Sales Automation and Field Service markets.

Designed to Keep You Moving

The PA600 is IP64-rated to resist dust and moisture, and its robust build will withstand multiple 4' drops to concrete. For remote workers, GPRS enables real time communication with back office and service management systems - improving efficiency and productivity in the field and improving customer service with instant updates on the status of jobs.

The PA600 - The Smart Choice

For applications requiring a compact and rugged PDA look no further. The PA600 has been designed to meet the demands of today's applications as well as those that are just around the corner.

Safeguard your investment. Choose the Unitech PA600.
